

ROCKs are Not Lonely Hearts Recruiting Outreach Coordinators of Kairos

Do you know that you have a built in committee for recruiting and outreach the minute you become a ROCK? Your Advisory Council committee is your team. You can add more recruiters if you like, but what a great start to have a team waiting for your instructions.

Always remember that the ROCKs are the coordinators who provide the recruiting strategy for the team. Don't try to do it alone. Include your Advisory Council and share in the love for Kairos recruiting and outreach.

Ok, you have a team now, what to do with them? Train, train, train! So, you can't get everyone to a Kairos Outreach training workshop? No problem because now your training materials include a voice lead facilitator [posted to the \(drum roll\) you guessed it website](#).

Look in the [Rock Pile section of the website](#) and you will find the training video. Schedule a training session where and when you decide. Allow time for Q&A and take breaks for discussion. Get your team trained and talking about how to reach that '1/3 New Members El Goal' at the next weekend.

Be sure to let us know if you use the training and send us some feedback on it's success.

Let's ROCK training in 2018!

Telling The Story

How powerful are the stories told by a Kairos graduate? [Check out the video library on the website](#) in the *O Kairos! My Kairos!* section.

Having videos in your recruiting and outreach toolbox is powerful. Just think of the effect it could have on a group of potential volunteers or donors.

You could display the videos to run continuously as you talk with people at a trade show or church conference. You can keep people engaged while you are talking to others. Your booth will be buzzing with potential volunteers and donors.

Let these Kairos videos ROCK the recruit!
