

POINTS TO PONDER

ON TRAINING

by Steve Newton

1. Advance Kairos Training

- a. If you recall, last fall there was a big deal when several who wanted to attend AKT were turned away because there wasn't room for them.
- b. Recall also that the new guidelines expect the weekend leader to attend AKT 12-24 months before their weekend and the Observing Leader should attend AKT before they serve as the OL.
- c. Here's the point to ponder (KI and KO) – get your future weekend leaders registered for AKT as soon as possible. Even if their weekend isn't until spring of 2018, register them in a future AKT class.
- d. The next AKT is in March in Amarillo. Already a few slots are filled by someone coming from another state.
- e. There are only 5 signed up for KO AKT - 2 are from Texas.

2. Outreach/Recruiting Training

- a. Some very exciting changes are on the way in the available tools for use by those doing Outreach and Recruiting.
- b. Next April, at our next SCC meeting, a training session will be held for how to use the new tools.
- c. Every Outreach/Recruiting coordinator from all Advisory Councils are invited to attend.
- d. Every Ad Council should be very excited to send their Outreach/Recruiting coordinator to Austin for a very good training session. If someone, other than the Outreach/Recruiting Coordinator would be interested in this training, please encourage them to attend also.
- e. KOT will pay for your travel and overnight expenses.

3. Advisory Council Training

- a. As happened during the SCC meeting in January, Advisory Council Training will be held during the April meeting.
- b. Here's the point to ponder – it is not only those new to the Ad Council that need training, the vets also need (maybe more) training.
- c. Please encourage everybody on the Advisory Council to attend this training sessions.
- d. KOT will pay for travel expenses.
